ANNOUNCEMENT

GOOD NEWS EVERYONE!

WE NOW OFFICIALLY HAVE A NEW INFO POINT IN VEVCANI, NORTH MACEDONIA!

Our dear young people, we are more than happy to announce that we have now officially opened the second Info Point "Paperclip" in North Macedonia.

As most of you now, and for those who don't, the first Info Point is in Valandovo, and so far we have had numerous events that included a significant number of young people.

Now, with a second Info Point in this country, we are striving towards multiplying these numbers of active young people being included in the bilateral activities within the c4cf initiative. And we look forward to welcoming all of you in our new space :)

PRESENTATION AND MEETINGS AT THE NEW INFOPOINT IN VEVCANI

2 individual informative meetings and 2 group presentations were the activities that highlighted the opening of our new Info Point "Paperclip" in Vevcani, North Macedonia. The young people who attended these activities were informed about the meaning of the C4CF initiative and the progress we have had so far, as well as the future steps we are planning to take.

We truly believe that this Info Point will open a lot of opportunities for them, by being an additional bridging mechanism for bilateral youth cooperation between the young people from North Macedonia and Greece. The young people from Vevcani will now have the chance to volunteer in their new space, but also to be part of the new activities within the initiative. Also, we expect their bright new and fresh ideas to bring an even broader perspective to the cooperation.

The feedback we received from these meetings was super positive and it gives us hope and motivation to continue doing what we have started many years ago.

Therefore, stay tuned with us and follow our social media profiles because we will be posting updates about our upcoming activities.

Also, if you are very interested in this initiative and you truly believe in our cause, feel free to write to us and we will share with you opportunities to engage you even more.

POLICY PAPER

"STRENGTHENING BONDS BETWEEN ALIENATED NEIGHBORS IN THE REGION: GREECE, BULGARIA, NORTH MACEDONIA"

Our dear partners SEE in Action have been working on a trilateral project "Strengthening bonds between alienated neighbors in the region: Greece, Bulgaria, North Macedonia", whose aim was to bring together the youth of the three countries in an environment of cooperation and mutual understanding.

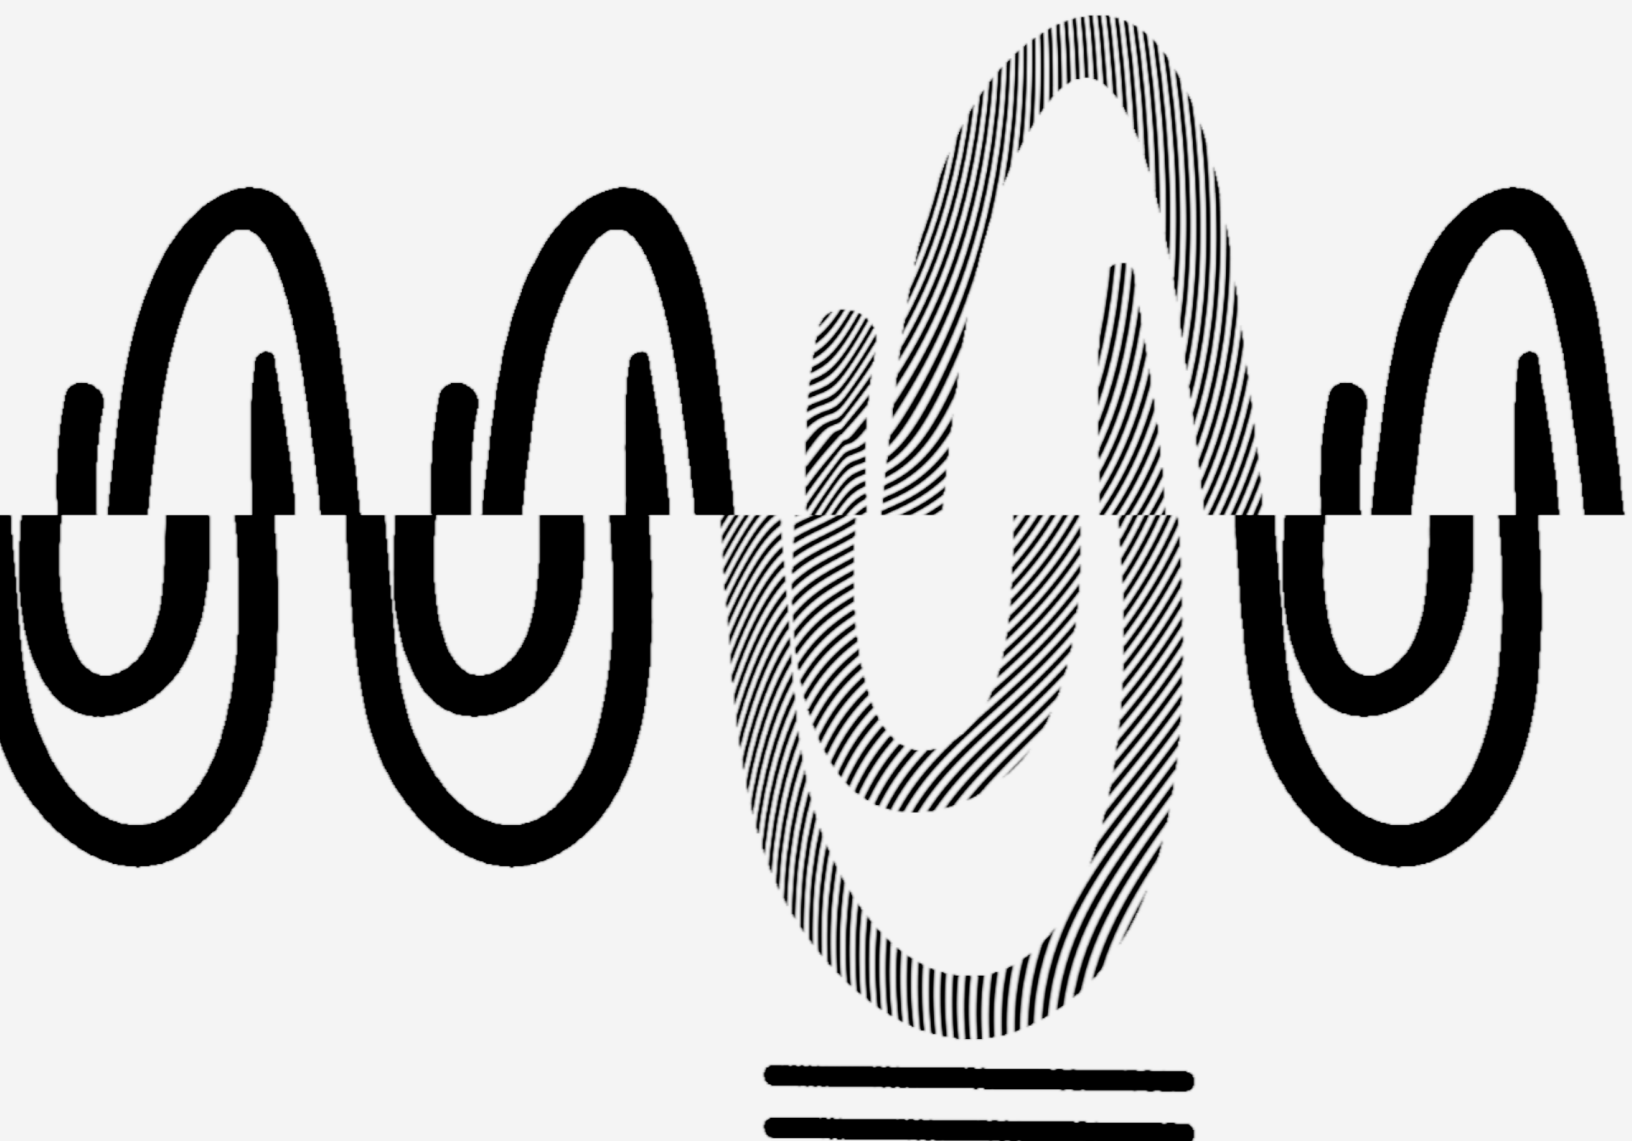

The project involved civil society organizations from all three countries in three separate meetings, where all sensitive and essential youth issues were discussed; education and employment, human rights, anti-discrimination and gender issues, and natural/civil environment and sustainability.

As a product from the project, they are sharing with us the "Policy paper" document that includes the policy recommendations and all important points made during the entire process of the project, followed by common proposals and a brief plan for future trilateral action.

We kindly invite every one of you to visit their website: **seeinaction.org** and review the full Policy paper. If you have any comments or recommendations, feel free to reach out to them on their social media profiles.

PREPARATORY MEETING FOR THE 3RD PHASE

3 days of preparatory meeting for the third phase of the Cooperation for a common future initiative. If we should use one word to explain it, we would say it was productive, intensive, fun, hectic, et cetera. We really can't use only one word because it was everything - discussions in Macedonian and Greek, about what can, what should, how should and who will be involved. But, at the end of the day, we are very happy with the outcome and we can't wait to share with you what we have prepared for you.

For now, the only thing that we can share is that you should expect a full 12 months of intensive work on youth cooperation.

And while we announce the upcoming activities, please make sure you follow us actively on our social media profiles where you can find all the information you need about our impact so far.
